

THURSDAY, DECEMBER 20, 1744.

Rome, November 28.

THE Sickness and Mortality that remains among the Inhabitants of Veltri, but especially, among the Women of that Town, is become a very serious Affair; and we have, last Week, sent thither several Physicians and Surgeons, to enquire into the Nature of this Distemper, that we may be

able to take the necessary Precautions, in case it prove contagious. According to their Report, the principal Causes of this Distemper have been the bad Air that People were obliged to drink, during the continuance of the Spanish and Neapolitan Armies in the Camp; and the Stench arising, as well from the dead Bodies of Men, as from the Mould just sprinkled over the Camp, as from the dead Bodies of Men, and the Father-Guardian of the Capuchins, and some Persons of Consideration, are arrived here from the Kingdom of Naples, who has sent M. Ciarelli, a Commissary-Apostolic, with a Detachment of 200 Soldiers, and a considerable Number of Artillery, to cleanse the Town, and Places adjacent; by which Means we hope the Health of the Inhabitants will be quickly restored, and all such Accidents prevented for the future. The taking of Count Sora, with the loss of his Command, is look'd upon here as a thing of great Consequence. That Nobleman, with his Family, and Twelve of the principal Neapolitans were taken with him, are gone under a strong Guard to the Castle of St. Angelo; where, it is supposed, they will be oblig'd to make some considerable Discoveries, with regard to the correspondence carried on by some of the Nobles of the House of Austria. In all Probability the Affairs of the Spaniards will begin to mend, and we have this Day finish'd, at our Mint, the Coinage of 800,000 Sequins, which are to be sent to the Duke of Gages To-morrow. There is an unlucky Accident in our Neighbourhood, which we forebode to be attended with a good deal of Trouble. A small Ship, consisting of about 250 Austrians, who were endeavouring to get to their Army, and for that Purpose had put out of this City in the Night, have been block'd up by a few Miles from hence, by several Corps of Spanish Troops, who pretend to make them Prisoners of War, notwithstanding their having claim'd the Protection of his Holiness. When we thought ourselves sure of receiving a Satisfaction for what the Country People suffer'd from the Spanish and Neapolitan Troops, we were told that nothing could be done in that Matter, as it was known whether Prince Lobkowitz is dispos'd to make the same Satisfaction; so that our Hopes are as far off as ever.

Head Quarters of Prince Charles of Lorraine,
at Oppidina, dated December 5.

The Severity of the Season rendering it impossible for the Army to continue longer in the Field, a Resolution was taken to put the Troops immediately into their Quarters. Baron Thungen, General of Horse, march'd into the Upper Palatine, with 10 Battalions of his Regiment of Horse, in order to sustain Count Saxe; all the rest of our Forces, as well as the Saxons, will remain either in this Kingdom, or in Moravia, except such as are under the Command of the Duke of Hohenlohe, General of Horse, who are to take their Quarters in the County of Glatz, and in the Duchy of Silesia. Orders have been likewise given for drawing a Detachment of 100 Men from each Regiment of Horse, and 500 from each Regiment of Foot; which will be sent to the Duke of Saxe Weissenfels; and it is thought, after all their Disappointments, they should be able to undertake any Thing. His Majesty is gone this Day to Jaromirs, in order to take leave of the Duke de Saxe Weissenfels; and it is thought, he will set out the Day after To-morrow for Vienna. We have had for several Days a great Deal of Snow, and something to eat, of which they are in great Need; all the Victuals in the Magazines, and the Frontiers, being some Way or other spoil'd, as they are by the Samples they have brought us of Meal, which is turn'd as black as a Har. The Castle of Glatz is taken out of their Magazines, it is thought that they will soon oblige them to surrender.

Hamburg, December 15. According to our Advices from the North, the Russian Court seems absolutely determined to support his Polish Majesty; so that we begin to believe here, that every Step taken by that Prince, was in Conjunction with the Czarina; the rather, because her Imperial Majesty gave the Prussian Minister, at her Court, to understand, that she was greatly offended with the Intrigues carried on in the Dyet of Poland. All our Accounts from Berlin, acknowledge the Losses sustained by the Prussian Army in Bohemia; and the Probability there is, that the County of Glatz, and the Duchy of Silesia, may be lost this Winter. The same Letters say, that Orders have been sent to Field Marshal Schmettau, at Paris, to propose a new Scheme for carrying on the War, by marching a great Body of Troops into Bavaria, and another Army, by the Way of the Upper Palatine, into Bohemia; with which, if the French refuse to close, he has Orders to return to Berlin directly. The Reports, that the King of Prussia has actually made Proposals of Peace, both to Prince Charles, and to the Court of Vienna, directly gains Ground; with this Addition, that his Propositions are not like to be accepted, without the Restitution of Silesia. The Affair of the Dyet of Grodno is become extremely serious; the King, at the Request of the Senate, is putting every Thing in his Dominions on a right Foot, and will speedily call an extraordinary Dyet; where it is thought some warm Resolutions will be taken, for obtaining Satisfaction from a certain Court, for corrupting the Members of the late Dyet; the Whole of that dark Scene being now brought to Light, and every Circumstance of it sustained by incontestable Evidence.

They write from Venice, that the Spanish Ambassador, who likewise manages the Affairs of the Court of Naples,

had demanded of the Senate, the Reason why the Minister of the Republick at Rome, did not pay his Respects to his Neapolitan Majesty, as well as the rest of the Ministers resident there; to which, as yet, no Answer has been given; but some Motions have been made amongst the Troops, and other Steps taken, that look as if the Republick was putting herself into a Posture of Defence.

They write from Nuremberg, that the Austrians are again advancing into the Upper Palatine; which has put the Imperialists there in great Confusion.

They write from the Hague, that two Dutch Generals, and an Austrian Minister, are shortly to go to a certain Court, in order to settle the Operations of the next Campaign, in such a Manner, as that France may not long have Occasion to boast of her having broken into the Barrier with Impunity.

The Trial Privateer of Bristol, three Days after she sailed from Kinsale, in Lat. 46: to 48: took the Benjamin from Leogane, last from the Havana; the French Captain, and Five of his Men, were kill'd. They sailed from the Havana in Company with Eleven Sail; Two of which were bound to Old Spain, and Nine to France.

The Jane, Capt. Smith, from Jamaica, was taken the 8th of November, Ten Leagues West from Cape Clear, by a French Privateer, and is carried into Bayonne.

The Rev. Dr. Barcroft, Chaplain in Ordinary to his Majesty, is appointed to preach before the King on the General Fast Day, January the 9th.

His Majesty has been pleas'd to appoint his Grace the Duke of Devonshire, to be Lord Steward of his Majesty's Household, in the room of his Grace the Duke of Dorset.

His Majesty has been likewise pleas'd to appoint his Grace the Duke of Dorset, to be President of his Majesty's Council, in the room of the Earl of Harrington, lately made Secretary of State.

Yesterday Admiral Anson took the Oath, and his Seat in the House of Commons, as Member for Heydon in Yorkshire.

This Day his Majesty will go to the House of Peers, in order to give the Royal Assent to the Land Tax Bill, and to two Naturalization Bills.

Yesterday the following Numbers were drawn Prizes in the State Lottery; viz. 32,831, 500 l. 26,473, 40,407, 3660, 31,474, 8839, 100 l. each.

Extract of a Letter from Charles Town, dated October the Second, 1744.

• Capt. Horth detach'd, from Frederica in Georgia, a Party of Creek Indians, 31 in Number, to scour about St. Augustine, against whom there came out a Party of Spanish Horse; viz. a Captain-Lieutenant, and a Trumpeter, with 30 Private Men; the said Indians attacked them near the Indian Church, kill'd the Trumpeter and 11 Men, took three Prisoners, and secured 14 of the Dismounted Horse; they would have brought these Horse to Frederica, but not being able to get them into their Canoes, as at St. John's River, they were oblig'd to shoot them; there was not one of the Indians hurt, nor is there a Yamacaw Indian now to be seen; for since the Action of Captain Carr's Men against the Spanish Indians, last Spring, not one of them durst venture out of the Lines of St. Augustine; and I doubt not but this late Action will keep their Horse in Quarters: There is just arriv'd at Frederica, a fresh Party of Creek Indians, consisting of 65 Warriors, and more are still following. They expected to see General Ogethorpe, and came to compliment him on his Return.

Admiralty-Office, December 14, 1744.

Whereas the Leave of Absence given to the Petty Officers and Foremastmen belonging to his Majesty's Sloop *Spy*, is expired, and the Lords Commissioners of the Admiralty having ordered them to be turned over to his Majesty's Sloop *Lizard*, at Portsmouth; It is their Lordships Direction, that the said Men do repair immediately to that Sloop; where they will be paid the Remainder of their Wages for the *Spy*, before the *Lizard* proceeds to Sea; and if they apply to the Navy Board, they will be allowed Conduitt Money, and Carriage for their Chefts and Bedding. But if they fail to repair down to Portsmouth, as above directed, they will not only lose the aforesaid Wages, but Directions will be given for apprehending them, in order to their being tried at a Court Marshal as Deserters, and punished with the utmost Severity of the Law.

Thomas Corbett.

Admiralty-Office, December 5, 1744.

Whereas by an Establishment, which has been long in Force in the Royal Navy, a Schoolmaster is allowed to each of his Majesty's Ships of the Third, Fourth, and Fifth Rate, with the Allowance of Midshipman's Pay, and Twenty Pounds a Year besides for his Encouragement; but an Opinion having prevailed of late Years, that since the Erection of a Royal Academy at Portsmouth, for Educating and Training up Gentlemen Sons for his Majesty's Sea Service, the Establishment of Schoolmasters has been abolished; which Opinion being hurtful to his Majesty's Service, by preventing Persons from applying to be employed in that Capacity, and thereby depriving the Youth, who serve on Board his Majesty's Ships, of the necessary Assistance for perfecting themselves in the Art of Navigation: The Lords Commissioners of the Admiralty think proper to order this publick Notice to be given, that the Establishment of Schoolmasters on Board the Ships of the Royal Navy is still in Force; and that if Persons properly qualified, by having passed an Examination at Trinity House, will apply to this Office, they shall meet with all due Encouragement, and be warranted as Schoolmasters, on board such of his Majesty's Ships as may be in want of them.

late Senior Fellow of the College of Physicians, F. R. S. for correcting the petrifying Disposition of the Blood, by destroying the first Combinations (if taken in time) and venting the Increase of STONE and GRAVEL in the mar. Body, is now prepared by the same Person in the Doctor's Use, the last Seven Years of his Life, as attested by Persons of Honour and Credit. This Medicine consists of Pills, and has not one Ingredient of Mercurius's Composition, being form'd on other Principles, in its Dose, easy and pleasant to take, and gentle in its operation.

Sold only at Mr. Watson's, Apothecary, against St. Martin's Church in the Strand, at Five Shillings the Box. Directions. At the same Place is sold the Doctor's Remedy for giving certain Ease in the severest Fits of the Stone, 2 s. 6 d. the Box.

Dr. ROBERT EATON

BALSAMICK STYPTICK

Truly prepared and sold at the Doctor's late Dwelling-house, now Mrs. DUTTON's, in Salisbury Fleet-street.

THIS Medicine restrains, in a surprising Manner, all internal as well as external Hemorrhages, &c. it intallibly and quickly stops all various Bleedings at the Nose or Gums, spitting of Blood, also the immoderate Flux of the Hemorrhoids or Piles, bloody Urine or Stools, bleeding of large Wounds, (if used according to the plain Directions given with it) will appear by the Certificates of several Eminent Persons, and in the large Account of this Medicine, written by the Doctor himself, and dedicated to the College of Physicians, a little before his Death.

It keeps good for many Years, at Sea or on Shore, in Climates; therefore must be universally Useful.

The Doctor not only obtaining his Majesty's Letters for the sole Vending of this most Excellent Medicine, also a Clause in a late Act of Parliament, exempting his Medicine from the Inspection of the Censors of the College of Physicians, to which all other Medicines are liable.

N. B. The late Learned Dr. CHEYNE, in his Essay, Piece, entitled The Natural Method of curing the Diseases of the Body, &c. prefers EATON'S STYPTICK to Heister's and other Stypticks; and speaks of it as follows:—Every one knows the agglutinating Quality of sweet Blood, and I apprehend it is to this, that EATON'S Styptic owes its mild, folding Efficacy. It is more mild, folding, and soft, than the mildest Steel Preparation, and more to patch a Hole, or glew up a Rupture, or to give a Bandage to the arid and inflamed flowing Blood of the Patient. says, he is confirmed in this by a Physician of great Candor, who has great Opportunities of dealing in Cases, by his Practice in Midwifery. See p. 146.
